 Needs Assessment Committee
 December 5, 2023

Topic	Minutes
FY23 Needs Assessment Discussion	<p>The committee agreed that the consultant would conduct a targeted Needs Assessment for FY23 on HIV and Aging based on the data from the previous assessment of the population ages 50 years and over.</p> <p>The data that will be analyzed for this report is based on existing data from the last Needs Assessment. 65% of the respondents from the Needs Assessment were 50 years and older. Additionally, the aging population that is 50 years and older was selected as the focus of the report because this demographic is projected to grow to 70% by 2030. The FY23 Needs Assessment will evaluate the feedback from the aging population on the accessibility and delivery of services.</p>
